ART. 6 - PROVA DI AMMISSIONE: MODALITA' DI SVOLGIMENTO - OBBLIGHI DEI CANDIDATI - VIGILANZA.

1. At the time of the test, each candidate is given an envelope prepared by CINECA on behalf of the University.

Each package contains:

- a) a personal data sheet, without any identification code, which the candidate must fill in;
- b) the questions relating to the admission test, bearing the identification code of the package as well as n. 2 sheets dedicated to draft;
- c) a reply form, with the same identification code as the package;
- d) a sheet on which the identification code of the package is affixed as well as the indication of the University and the degree course to which the test refers;

e) a sheet containing the anonymous credentials (User-ID and Password) through which the Candidate, after correcting the test, will be able to access a web page - corresponding to a URL (also present on the sheet) - where he can view:

1. his proof, in html format, with an indication of the correct answers he should have provided;
2. the score obtained;
3. the scan of your reply form.

The replacement that may become necessary during the test of the personal data sheet only, referred to in the previous letter a), does not involve the complete replacement of the envelope.

The replacement that may become necessary during the test of even one of the documents indicated in points b), c) and e) entails the complete replacement of the package as these documents are marked by the same identification code as the package.

Any corrections or signs made by the candidate on the personal data sheet do not entail its replacement. The replacement of the personal data sheet is provided only where the signs or corrections made by the candidate involve an objective difficulty in identifying the candidate: in that case the Commission will replace the personal data sheet by taking it from one of the reserve packages and the operation will acknowledge in the classroom minutes. In any case, the replacement of the personal data sheet never entails the replacement of the entire envelope.

Before the test begins, the President of the Examination Commission or the Classroom Manager draws four students from among the candidates present in the classroom and checks with them the integrity of the boxes, then opens them and distributes the packages in relation to the number of participants; gives each candidate the "instruction sheet for completing the answer form". The "instruction sheets for completing the answer form" are made available to candidates before the test is carried out.

The President of the Examination Committee or the Head of the classroom draws up and signs, for the operations carried out above, a specific declaration - CLASSROOM MINUTES - which show:

- 1.1) the verification of the integrity of the boxes;
- 1.2) the number of packages assigned;
- 1.3) the number of packages that may not have been used;
- 1.4) the number of packages possibly replaced, with the relative motivation.

This declaration must also be signed by the four students drawn for the verification of the integrity of the packages containing the competition material.

On the day of the exam, the President of the Commission or the Head of the classroom also draws up the minutes of the classroom, prepared according to the format made available by the M.U.R.

In the event that one or more candidates report any irregularities regarding the package received, the President of the Examination Commission or the Head of the classroom checks its reliability and, if necessary, replaces the package itself. This operation must appear in the classroom minutes together with the relative reasons. The replaced packages are not to be considered waste material, but must be kept by the University.

Candidates, to fill in the answer form, must use only an indelible black pen, supplied by this University and must mark the chosen answer by putting the X sign in the corresponding box. It is possible to correct once and only once the answer already given to a question, taking care to completely black out the box previously drawn and choosing another one: in any case, there must be a mark (X) in only one of the five boxes so that the relative score can be attributed, otherwise no answer is deemed to have been given.

The answer form provides, in correspondence with the progressive number of each question, a small circular figure that the student must cross only if he intends to give certainty of the will not to answer. This indication, once affixed, can no longer be modified; if the candidate does not put any sign in the answer boxes, even if he does not tick the circular figure, the answer is considered not given.

On the answer form - for the purpose of determining the relative score - there must be no signature or any identification mark, under penalty of cancellation of the test.

At the end of the test, the candidate goes to the dedicated station equipped with a special pen, placed at a reasonable distance from the Commission, and is invited to choose a pair of identical adhesive labels present there. Each label must be applied on the answer form and on the personal data sheet by the candidate who must ensure that the alphanumeric codes printed on the labels of the chosen

pair correspond. The candidate must therefore obligatorily sign, on the duly completed personal data sheet, the declaration of truthfulness of the personal data and correspondence of the codes of the labels applied to the personal data sheet and to the answer form. At the end of these operations, the candidate must insert the personal data sheet in the sealed container present in the dedicated station and go to another dedicated station where he inserts the answer form in the closed container provided therein, taking care to insert the front of the form, containing the answers provided by the candidate, face down.

In addition to the answer form and the personal data sheet, the candidate must return to the Commission all the residual material contained in the package delivered at the beginning of the test.

The President of the Commission or the Head of the classroom then provides:

- to count the answer forms and to insert them in one or more containers that must be closed in the presence of the same candidates called to verify the integrity of the boxes or, in the event of their impossibility, in the presence of four other candidates drawn by lot;
- to insert all the personal data sheets in one or more containers that must be closed in the presence of the same candidates called to verify the integrity of the boxes or, in the event of their impossibility, in the presence of four other candidates drawn by lot;
- to affix a signature on the closing flaps of the containers and to invite the four students to put their signature on the same flaps;
- to pack other containers in which to enclose the packages returned because they have been replaced, the packages from which the personal data sheets for replacement have been taken as well as the unused packages, the declaration referred to in this article and a copy of the classroom minutes , with the classroom lists of candidates.

2. Therefore, candidates are prohibited from introducing within the competition venue: mobile phones, smartphones, smartwatches, PDAs, tablets, headsets, webcams and other similar tools; candidates, who are in possession of such equipment, must deliver them to the identification staff before entering the classroom or sector where the candidate was assigned to perform the test.

During the test, competitors are not allowed to communicate verbally or in writing, or to get in touch with others, except with the members of the Commission or the Supervisory Committee or with the technical-administrative staff responsible for surveillance.

The candidate who infringes the provisions of this article is canceled by the Commission and the same is excluded from the competition.

3. Any further information on how to conduct the test and time spent in the classroom will be disclosed with a subsequent provision, or with the information provided in the classroom to the candidates by the Commission, following the indications provided with the guidelines by the M.U.R.

ART. 7 - CAUSES FOR CANCELLATION OF THE TEST.

The following are grounds for cancellation of the test:

1. the performance of the test by the candidate in an exam room other than the one in whose classroom lists the candidate is enrolled unless the variation has been authorized by the Examination Commission and this is acknowledged in the minutes;
2. the introduction and use in the classroom, by the candidate, of mobile phones, PDAs, smartphones, smartwatches, tablets, headsets, webcams or other similar equipment, manuals, school texts and / or even partial reproductions of them, handwritten notes and reference material, as already provided for in paragraph 2 of article 6 of this announcement;

The cancellation of the test is ordered by the Commission. In the cases referred to in numbers 1), 2), 3) 4) and 5) the CINECA does not determine the score of the canceled test.

The test is also subject to cancellation in case of use by the candidate, after the end of the test, of pens, pencils or any other suitable writing instrument in order to make changes, additions and / or corrections to the answer form, and in the event that the personal data sheet shows erasures and / or abrasions or indicates data which, at the discretion of the Commission, do not allow to trace the author of the paper with certainty.
